

If you plan to have Silent Disco for your events, I proclaim that my Silent Disco is "MUCH BETTER". We make it work "MUCH BETTER"

THESE ARE SEVEN REASONS WHY

1. NO DRY HIRE

We don't dry hire our headphones. We bring them to your event ourselves with all the kit, set it up and operate the whole thing. We organise bespoke playlists, hand out the headsets to your guests and give the entire operation the focus it is often deprived of when Silent Disco is just dry hired

2. MORE HIGHLY INTERACTIVE

With us, the whole experience is more highly interactive. Our own operator / DJ talks directly to the guests, irrespective of the music channel they are tuned in to. This creates the opportunity to encourage guests to sing along and perform routines. We sometimes even give the guests funny challenges.

3. SIMPLE PRICING

Our pricing is simple. How ever many headphones you require (up to 200) the price is the same. Also we do not charge for damages or losses. (** see conditions).

4. NOT JUST FOR KIDS

At private family occasions, Silent Disco **SHOULD NOT BE USED** just for the young guests. At the designated time slot, **EVERYONE** should get involved. Used as intended, there is so much more to get from Silent Disco as part of the content of the event.

5. THREE DJs

Our best add-on option for our Silent Disco is to provide 3 DJ booths, with a DJ playing to one of the three channels, each competing with each other to win the majority of the crowd tuning into their channel. One of the DJs can be your own or can even be a fake DJ, such as one of the guests or hosts.

6. HIGH QUALITY KIT

We use the best transmitters and headsets available. Headsets deliver brilliant sound quality, have led coloured light indicators and volume controls.

7. BETTER IDEAS

Silent Disco Headsets can be used in many other ways. One advantage is using them when the DJ needs to end. Silent Disco makes it possible for the music to keep on and the party to keep going. We have also used them for Silent Cinema, Live Game Shows and even for a way to provide translation at conferences or during speeches etc.
